

CROWE INSISTS ON SENTENCE OF DEATH FOR BOYS

Ridicules Arguments of Defense—Should Enforce Laws

CHICAGO, Aug. 26. (AP)—The labor of battering down a four day plea for "humanity, gentleness, kindness, and mercy" was begun today by State's Attorney Robert E. Crowe.

Launching the final argument of the state in the advisory hearing before Chief Justice John R. Caverly of the criminal courts of Cook county, Mr. Crowe struck out vigorously with a renewal of the state's plea for the death penalty for Nathan F. Leopold, Jr., and Richard Loeb for the kidnapping and murder of 14 year old Robert Franks.

The hearing came thus near to its end, because Benjamin Bachrach, of counsel for the defense, used only a part of the morning session in the last plea for the student defendants. He picked up a few stray threads of the defense case and wove them into the design of its fabric.

Mr. Crowe based his argument, he emphasized, not on the philosophies of the sages or the ages, not upon the "prattle and puff" of paid alienists concerning childish phantasies, and dreams of supermen, but "upon the laws of Illinois."

"And the law says," he shouted with a stirring gesture, "that in cases of extreme violence the penalty shall be fixed at death."

"Three Wise Men"

The state's attorney snapped his oratorical fingers at the mental sickness theory of the defense, based, he said, upon "hair line decisions of high priced alienists," whom he was pleased to call "the three wise men from the east."

He made light of "all this twiddle about childish compact, and dream lands of teddy bears and detective careers," and called the proceedings "back from laboratories, psychopathic hospitals, and communistic mass meetings to the criminal court of Cook county."

His argument once took him into realms of controverted points and precipitated as a climax to the day's proceedings a disagreement between counsel which brought into the open record a portion of the coroner's physician's testimony on his post-mortem examination of the body of Bobby Franks after it was found in a water filled railroad culvert.

The defense maintained that Mr. Crowe had drawn an unfair inference as to the condition of the body in relation to the crime, an inference which they said was not borne out by the coroner's report.

Women Excluded

To settle the controversy Judge Caverly sent for the report and announced a five minute recess to give women an opportunity to leave. He assured them that court would adjourn immediately after the reading but about half of those in the audience elected to remain. Then the judge ordered them out.

"I want you to leave at once," he said. "Why persist in hearing this rot?"

There was a scurry for the doors and when the hubbub had subsided only a third of the seats in the room were occupied and those by men.

The report was read and the defense attorneys again asserted it proved their point.

"My contention is that the water in the culvert washed away the evidence," said Mr. Crowe.

"Well, we have the report now and you will not want to go beyond that," said Judge Caverly, as he adjourned court.

Mr. Crowe was vigorous in his language.

His gestures, particularly his pounding on the table before him brought spectators to the edges of their seats. He was wringing wet with perspiration before the afternoon session was half thru.

He scored the defense plea for mercy and characterized Mr. Darrow, the professional protector of murder in Cook county.

DAWES PREPARES TO LEAVE FOR LINCOLN NEBRASKA THURSDAY

Anxious to Visit The Town Where He First Hung Up Law Shingle

EVANSTON, Ill., Aug. 26. (AP)—Charles G. Dawes, Republican vice-president nominee returned tonight to spend two days at his home before leaving on his second campaign speaking tour.

The nominee will leave Thursday night for Lincoln, Neb., his former home and the home of Charles W. Bryan, his Democratic opponent in the contest for the vice-presidency. It was at Lincoln that Mr. Dawes first hung up his shingle as a lawyer in 1887 after graduating from law school and he said tonight that he looked forward with a great deal of pleasure to getting back among his old friends.

The address to be delivered by Mr. Dawes Friday night in the University of Nebraska stadium where Governor Bryan formally accepted the Democratic vice-presidential nomination last week will be devoted primarily to the agricultural situation and will be largely extemporaneous. The subject was discussed yesterday at Plymouth, Vt., with President Coolidge and Mr. Dawes is expected to present the first plan of the move detailed by the Republican national committee.

Tomorrow will be Mr. Dawes' 59th birthday, but he plans no special celebration of the event.

POSTAL INSPECTOR HELD AS LEADER IN BIG MAIL ROBBERY

Makes No Effort to Raise Amount of Bond and Goes to Jail

CHICAGO, Aug. 26. (AP)—William Fahy, regarded as one of the aces of the local force of postal inspectors, was arrested in his own office in the federal building here late today charged with being the master mind of the recent \$2,000,000 mail robbery at Rondout, Ill.

Fahy immediately was taken before a federal judge and his bond was fixed at \$50,000. He made no effort to raise the bond and was placed in the county jail at Geneva, Ill.

Fahy's arrest came after weeks of surveillance, it was said, during which he was said to have been seen frequently in the company of men suspected of connection with the Rondout robbery, and to have been in communication with other men who fled to various parts of the country after they were suspected of complicity in the robbery.

Fahy declared his arrest was the result of a "frame up" and asserted his innocence of connection with the Rondout robbery. Fahy has been instrumental in clearing up some of the most famous postal department robberies.

BOND FORFEITURES OF YOUNG ENORMOUS

HERRIN, Ill., Aug. 26. (AP)—The case of Carl Neilson and Walter Winstead, charged with assault to murder in connection with the rioting here the night of February 8th, last, went to trial late this afternoon.

A larceny indictment against Neilson was dismissed by the state this morning with leave to reinstate. He had been acquitted by a jury on a robbery charge. By noon today bonds totalling \$39,000 had been forfeited as the result of the non-appearance for trial here of S. Glenn Young, Ku Klux Klan liquor raider on indictments in connection with the rioting. The bonds were on nine cases on various charges. About the same number remain to be called.

The case was formally withdrawn by Chicago Printing Pressmen's Union No. 3 which was responsible for the litigation against the board of directors of the International Printing Pressmen and Associate Union in May 1919, were seated at the annual convention today. The seating of these delegates marks the final chapter in a litigation that was supported by the radical element of the International Pressmen at that time, the basis of which was an attack upon the vote of the membership in levying an assessment to protect the continuous good standing of 5,524 members of the organization who were in the armies and navies of the United States and the dominion of Canada during the world war.

KLAN THREATENED BY MACHINE GUNS

CAMP CUSTER, Mich., Aug. 26.—Two machine guns manned by full crews are in position to cover Harbord Hill, named in honor of Major General J. G. Harbord and lately the scene of activities apparently of the Ku Klux Klan. The Klan convocation which rumor assigns to Camp Custer tonight will be met with bullets according to orders issued at noon today by General George Van Horn Moseley, camp commander. General Order 18 issued over the general's signature says that guns will open up if another meeting similar to the ones of the last two nights is held on the federal reservation.

LAST OF SLAYERS OF SHERIFF CAPTURED

Shreveport, La., Aug. 26.—Freeman Coleman, last of the trio of negro moonshiners charged with the slaying of Sheriff E. M. Rantz of Jackson Parish, near Andale, last Friday, has been captured. Booker Boone and Willie Washington also are safely behind the bars of jails at points which authorities are keeping secret.

LIBERIA FIGHTS MOVE HEADED BY MARCUS GARVEY

Members of Negro Improvement Association Not Wanted

WASHINGTON, Aug. 26. (AP)—The government of Liberia in a formal communication delivered by Ernest Lyon, consul general has advised the Washington government that it is "irrevocably opposed both in principle and in fact to the incendiary policy of the Universal Negro Improvement association, headed by Marcus Garvey."

The communication declares that the Liberian government has noted with some concern the continued activities of Marcus Garvey, particularly in respect to his widely advertised plans for the emigration of American negroes to Liberia.

It also was stated by Consul General Lyon that he had been instructed by his government to discontinue the practice of visting passports for American negroes, members of the Universal Negro Improvement association, or who had expressed themselves in any manner as being in sympathy with the movement headed by Marcus Garvey.

It was not the intention of the Liberian government, however, Consul General Lyon said, to exclude from that country American negroes who desire to make their home in Liberia and enter into the commercial or business life of that country.

NEW YORK, Aug. 26. (AP)—Marcus Garvey, self-styled "His Highness, the potentate of the Universal Negro Improvement association and provisional president-general of Africa," denounced tonight the action of the Liberian government in presenting a statement to the effect that it was opposed to the "incendiary policy" of the organization headed by Garvey.

The communication referred to is but the result of machinations of a few unprincipled negro politicians in America and Liberia, who are opposed to the best interests of their race, said Garvey's formal statement.

Marcus Garvey, in his youth a checker and supercargo for the United Fruit company in Jamaica organized the Universal Negro Improvement several years ago. Its avowed object is expressed in the slogan of "Africa for Africans."

CHICAGO PRESSMEN'S DELEGATES SEATED

PRESSMAN'S HOME, Tenn., Aug. 26. (AP)—Ten delegates from Chicago Printing Pressmen's Union No. 3 which was responsible for the litigation against the board of directors of the International Printing Pressmen and Associate Union in May 1919, were seated at the annual convention today. The seating of these delegates marks the final chapter in a litigation that was supported by the radical element of the International Pressmen at that time, the basis of which was an attack upon the vote of the membership in levying an assessment to protect the continuous good standing of 5,524 members of the organization who were in the armies and navies of the United States and the dominion of Canada during the world war.

MRS. FERGUSON HOLDS LEAD FOR GOVERNOR

Dallas, Texas, Aug. 26.—Returns from widely scattered counties trickled in slowly today from last Saturday's primary changing only slightly the majorities of the various successful nominees. Final tabulation for the day at 7 o'clock by the Texas election bureau from 241 counties out of 252 in the state, including 189 complete, show the following totals:

Governor—
Ferguson 434,707.
Robertson 342,674.

FORMER PRESIDENT OF BANK FACES SENTENCE

Madison, Wis., Aug. 26.—Henry E. Rohlf, former president of the defunct First National bank at Hayward, Wis., and one of the leading citizens of that community, will face Judge Claude D. Luse in federal court tomorrow morning to be sentenced for five counts of violating the federal banking law.

REPARATIONS MEETING FOR TODAY POSTPONED

Paris, Aug. 26.—The reparations commission has postponed its meeting fixed for tomorrow.

Nation Is Preparing To Welcome Aviators

ON BOARD THE U. S. RICHMOND, Aug. 26. (AP)—Rear Admiral Magruder, in command of the patrol squadron guarding the course of the American army round the world fliers, was informed today by Lieutenant Lowell H. Smith that he and Lieutenant Erik Nelson were changing the engines in their machines at Iqviut, Greenland and that they would not hop off from there for the flight to Labrador until Thursday. This delay will enable the Richmond to proceed westward from Greenland waters and greet the aviators when they arrive at Indian Harbor.

Lieutenant Locatelli, the Italian aviator who started on the flight on Tuesday to Greenland with Lieutenant Smith and Lieutenant Nelson out was forced to descend in good spirits today after a full night's rest on board the Richmond.

"It was not willed that we should have success," said Locatelli today, in recalling the bad luck that had compelled him to come down on the water for minor repairs because his carburetor was not functioning properly. The machine descended thru a thick fog bank and lighted on the water and the repairs were made. Fifteen minutes later the fog lifted but the water was too rough for a takeoff. Therefore the machine was permitted to drift about in order that the Italian and his companions might have the advantage of a perfectly flat sea. Their hopes for better water conditions, were vain and the plane continued to drift, buffeted by the waves, until it was found by the Richmond.

The Italians today insisted that the only damage to the plane was to two metal rods supporting the front engine. These buckled, making it dangerous to attempt repairs from the rough water. They maintained that had the Richmond arrived during daylight, instead of in the dark of midnight, or if they had had a boat to stand by until morning they could have raised the plane and continued their flight. The Italians did not blame the Americans for the loss of the aircraft. They asserted that

Messages of congratulation for the part played by the navy in the rescue of Lieutenant Locatelli, the Italian aviator, continued to pour into Secretary Wilbur's office today. Among them was a telegram expressing the gratitude of the National Italian World War Veterans' association for the "spirit of comradeship shown by the United States navy."

SEVERAL ILLINOIS PEOPLE INJURED IN FRISCO DERAILMENT

Train Running at High
Speed Leaves Track at
Menfro, Mo.

MENFRO, Mo., Aug. 26.—Thirty-two passengers were injured, three severely, when the "Memphian" Frisco passenger train from Memphis to St. Louis was thrown from the track while running between 40 and 50 miles an hour near here today.

Eleven of the injured were rushed to Cape Girardeau, 40 miles south of Menfro, and the other injured and stranded passengers were taken aboard a train for St. Louis, due to arrive there between two and three o'clock this afternoon.

Mrs. Theodore G. Leghorn, negro, Sparta, Ill., was among the most severely injured. The fast train struck a broken rail, officials said.

Engineer Campbell and his fireman were not injured. The injured include:

J. F. Armstrong, Stanford, Ill., back sprained.

William B. Boyle, Grafton, Ill., back sprained and hand bruised.

Mary Lampert, Brighton, Ill., head, leg and arm hurt.

PRINCE SATISFIES CURIOUS PASSENGERS

ON BOAR DTHE BERGENARIA, Aug. 26. (AP)—The Prince of Wales this evening for the first time appeared in the ball room, which was crowded with passengers taking advantage of their first opportunity to see him at close range. The prince danced several times with Lady Mountbatten and other members of his party, and later with Miss Cahill, an Irish-American passenger who is traveling with her aunt, Mrs. Burke.

At one time it became necessary for the prince to retire to his room and change his collar, which had become wilted, but he immediately returned to the floor and danced with unabated enthusiasm.

CHICAGO LIFE GUARDS WIN MIDWEST TROPHY

Culver, Ind., Aug. 26.—The cutter crew of the Chicago Life Guards won the middlewestern championship over six competing crews on Lake Maxinkuckee today. The race was over a half mile course.

The heavy crew of the great lakes naval training station finished half a length behind the winner with the great lakes Chippy crew in third place. Culver, Green Bay, Indianapolis and Milwaukee finished in the order named.

CONFIDENCE IS VOTED HERRIOT ON DAWES PLAN

Premier Successfully Answers Criticism of Poincare

PARIS, Aug. 26. (AP)—The senate tonight voted confidence in the Herriot government 206 to 40 after a long debate in which M. Poincare scathingly criticised his successor's handling of France's interests at the international conference on reparation in London.

The little ex-premier though enjoying the confidence of the majority in the senate was unable to overcome the power of the burly Herriot who in a two hour speech countered his predecessor's four and a half hour diatribe against the promise to evacuate Ruhr within a year.

Defending himself against M. Poincare's attacks, notably against his sarcastic references to the British naval review at Spithead, M. Herriot said:

"Yes I went to Spithead and among the ships I saw there I noted many whose names will remain in history for having protected our shores at Jutland, and thereafter, and I said to myself 'what a loss it would be for France were to be separated from these comrades of the war.'"

"Therefore I did my best to maintain the accord between the allies. I believe that that accord today is confirmed. I come before you without ambition, without pride, but I believe that the good work has been done."

CHIPPEWA INDIANS AIR GRIEVANCES

BEMIDJI, Minn., Aug. 26. (AP)—Minnesota Chippewa Indians with grievances against the way their affairs have been handled, had their day here today at the first session of the senate subcommittee hearing.

Outside of brief preliminaries at the opening all of the time was devoted to hearing the case of one of four major factions as presented by Webster Ballinger, Washington, D. C. Attorney. Ballinger represents the mixed bloods who comprise about two thirds of the 12,000 Minnesota Chippewas.

Ed Rogers, county attorney of Cass county, and president of one of the general Chippewa's councils during a brief statement at the afternoon sessions declared "Mr. Ballinger does not like the Indian Bureau and the bureau does not like Mr. Ballinger so we like to retain him to keep things stirred up."

Previously, Commissioner Chas. H. Burke of the Indian office replying to a statement made by Ballinger that the bureau had been partisan and unfair in its administration of Indian affairs asserted that the constructive work of the bureau was being hampered by Ballinger's agitation.

LOOKS LIKE HENRY IS KLAN MEMBER

MONTREAL, Aug. 26.—"If the truth were known about the Ku Klux Klan it would be looked up to as a body of patriots," Henry Ford is quoted as asserting in an article printed in the Montreal Star today.

"It (the Klan) is the victim of a mass of lying propaganda," he is reported to have said, "and is therefore looked upon with disfavor in many quarters. But if the truth were known about it, it would be looked up to as a body of patriots concerned with nothing but the future of the country in which it was born and the preservation of the supremacy of the true American in his own land."

PRESIDENT APPROVES GERMAN RELIEF SHIP

NEW YORK, Aug. 26.—A letter from President Coolidge commending the plan of the women's church committee on international good will, to send a Christmas relief ship to Germany, was made public today by Miss Caroline M. Wood, chairman of the committee.

The ship which will sail on November 10, will be followed by a group of American women who will speak in Germany in the interest of international friendship.

RECEIVERS APPOINTED FOR WILSON AND CO.

New York, Aug. 26.—Julius M. Mayer, former judge of the United States circuit court, Robert C. Morrell, a lawyer, and Thomas E. Wilson, president of Wilson and Co., were appointed receivers of Wilson and Co., today by federal Judge William Bondy. The appointment was made in an equity action brought in the United States district court by John Elsner company a creditor with a claim of \$5,943.

WHEELER IS ORDERED TO STAND TRIAL ON CHARGE IN MONTANA

Federal Court Mandate Puts Crimp in Campaign Arrangements

WASHINGTON, Aug. 26. (AP)—Senator Wheeler of Montana, vice-presidential candidate on the LaFollette ticket was notified today to appear before the federal court in his home state September 1, for the arraignment on a charge of misusing his office which was brought against him last spring.

After hurried wire communication with his Montana representatives a conference with Senator LaFollette, permission was gained to allow the formal appearance to be made for him by an attorney, thus permitting the campaign speaking engagements already made for him in New England next week to be carried out.

The step taken for his arraignment and the Wheeler campaign itinerary was consequently tentatively cancelled except for New England, where he will open his campaign with a speech in Boston on September 1, and appear in other cities the rest of that week.

"I shall be present for trial whenever the federal prosecutor desires to have it," Senator Wheeler said. The charge against me is misdemeanor and it is an unheard of thing that a defendant on a misdemeanor charge should be required to stand for arraignment in person, for even the trial itself may be held without his presence. However, I shall be there."

KLAN IS WARNED BY OHIO DEMOCRACY IN OPENING OF BATTLE

Lead of Davis is Followed at State Platform Convention.

COLUMBUS, O., Aug. 26. (AP)—Ohio Democracy today in its opening battle to win the state at the November election unleashed the oratory of its national standard bearer, John W. Davis, upon the voters and inscribed on its banner a warning to the Ku Klux Klan that its existence is a menace to American ideals and institutions.

These and other things were done thru the medium of the party's state platform convention. The party also pledged itself to maintain a vigilance to the primary system in antipathy to the Republican party's pledge to return in measure to the old nominating system thru a pre-primary endorsing convention and also took cognizance of the general tendency to increase telephone rates by declaring against further increases now.

In addition to the oratory of Mr. Davis the convention also was replete with words of condemnation of Republican regime by both national and state and of Democratic efficiency from former Governor James M. Cox, the Democratic presidential candidate four years ago, former Secretary of War Newton D. Baker, Governor A. V. Donahey, Commerce Director Cyrus L. Ladd and former Governor James E. Campbell who presided as a temporary and permanent chairman.

U. S. STEAMER CARRIES NEW PLANE FOR ZANNI

KOBE, Japan, Aug. 27. (AP)—As the American destroyer John Paul Jones, three months ago hurried southward from Hakodate carrying a spare airplane for A. Stuart MacLaren, the British around-the-world flier, the American liner President Madison, has sailed from Kobe with a spare plane for Major Pedro Zannan, the Argentine flier who crashed when starting from Canton, China, Indo-China for Canton. The President Madison will take the plane which arrived here from Europe on the Japanese liner to Hong Kong whence it will be shipped to Hainan by the Chukwa Maru, a Japanese steamer.

After the assembly convenes Monday its real work will be assigned to six commissions. The third commission will devote itself to all subjects touching the reduction of armaments, including control of the traffic in arms agreements to provide security among the states and the extension of the principles of the Washington naval treaty to non-signatory powers.

YOUNG NOT WORRIED OVER BOND FORFEIT

ATLANTA, Ga., Aug. 26.—S. Glenn Young in Atlanta today, stated that he was not worried about forfeiture of the bond upon which he was out after his arrest on charge of rioting in Herrin last February. He stated that he was fully protected by the statutes of Illinois. He also announced that he was preparing to enter a hospital within a few days and expected to be detained there for 30 days while undergoing an operation upon his leg. Afterward, he said, he would go to Herrin as soon as his physical condition permitted. He denied reports that he intended to travel, saying he would stay in Atlanta until he entered the hospital.

WOMAN IS SENTENCED FOR ROBBING MAIL

Milwaukee, Aug. 26.—Mrs. Mabel Nees, 23, wife of George Nees, who waived examination in Chicago on a charge of rifling mail boxes today was sentenced to two years in the house of correction here on a charge of robbery.

QUESTIONNAIRES SHOW COOLIDGE GAINS STRENGTH

Northwest Replies Show Gain Since Acceptance Speech

PLYMOUTH, Vermont, Aug. 26. (AP)—The buzz of political conferences and gossiping became distinct in this hamlet today as President Coolidge gave over some of his vacation hours to brief visits with party spokesmen and listened to other voluntary reports from visitors from all sections whom he received.

Representative Tilson, of Connecticut, director of the national committee speakers bureau in the east, revealed plans for a speaking tour to cover the nation starting from here September 9, after a conference with the president, and later with Vermont party leaders.

John Barrett, Grafton, Vermont, as a member of the Coolidge independent information group, brought a report of gains by the president in the northwest as shown in a survey conducted since he delivered his speech of acceptance and compared with a similar survey made before his nomination.

Members of "The First National Grange Tour," slipped off their course in a journey thru this section to meet the president and Mrs. Coolidge this morning and the party, representing farmers of twelve middlewestern states, likewise expressed in interviews a belief that Republican success was in line in November.

Arrangements were made by Mr. Tilson at the conference with Earl Kinsley, national Republican committeeman from this state and some other state leaders this morning to open a tour which will follow the Lincoln Highway from coast to coast with a meeting here September 9. The expedition, to be known as "The Coolidge-Dawes Speaking Tour," will visit 300 cities on the 5,000 mile course, members of the party traveling in six motor cars under the direction of A. W. Jeffries, of Omaha, Nebraska.

The following states will be visited: Vermont, New Hampshire, Massachusetts, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah, Nevada, California, Oregon and Washington.

The summary presented by Mr. Barrett detailed answers given by 2,000 voters in the central and northwestern states to questions sent out by the information group. The result showed, according to the summary, that the vote in favor of Coolidge was fifty percent of the total after deliverance of his speech of acceptance as compared with 37 1/2 percent before and that for LaFollette was 37 1/2 percent of the total as compared with 50 percent in the May survey.

LEAGUE INVITES U. S. REPRESENTATIVES

GENEVA, Aug. 26. (AP)—The League of Nations has extended an official invitation to the United States government to send an official representative to participate in the deliberations of the disarmament commission which will be appointed by the league assembly. This initiative, which is unique in the outgrowth of American participation in the league's preliminary study to elaborate a convention for international control of the traffic in arms.

After the assembly convenes Monday its real work will be assigned to six commissions. The third commission will devote itself to all subjects touching the reduction of armaments, including control of the traffic in arms agreements to provide security among the states and the extension of the principles of the Washington naval treaty to non-signatory powers.

Mr. Darrow is a picturesque pleader for mercy in the Leopold trial. But there is logic in State's Attorney Crowe's declaration that it is the duty of the judge to interpret and enforce the laws as they exist.

Mrs. Ferguson, nominated by the Democrats for the governorship of Texas, says the action of the voters is a vindication of her husband's impeachment. Perhaps it was her own popularity or the weakness of her opponent that brought about the result.

The appointment of a receiver for Wilson & Co., great packing firm with a capital of \$30,000,000 caused scarcely a ripple in the business world. The time was when such an action would have meant a slump in the market with subsequent uncertainty and unrest on the part of investors. The

calmness, with which the action was viewed gives evidence of the strength and soundness of the country's existing financial system.

It is too bad that thousands of voters will not understand that Senator LaFollette, on a third party ticket, and in failing health, has no thought of winning the presidential election. What LaFollette seeks is power, and the possible chance of winning enough delegates to give him a voice in the election, if thrown into the congress.

THE AUTO AND THE CHANGING WORLD

A person does not have to be of great age to recall the advent of the first auto in Jacksonville or vicinity, when a syndicate of citizens, headed by the late M. P. Ayers, purchased a runabout, and what a sensation it created on the streets. Then Harry Hall was experimenting up and down College avenue, on the invention or improvement of the "horseless carriage." This has been a comparatively few years ago, and these men were deemed dreamers. The idea that anything could take the place of the horse!

But it has, almost imperceptibly, changed the manner of living, the every day habits of the American people. Not only has the auto lived and been perfected, and cheapened in price, but it has become the greatest factor in the living conditions of the people of the present generation.

Only a few years ago the great ambition of a young married couple was to own their own home, to provide for the future "rainy day." But the auto is with us, affording pleasure and health and recreation for the whole family. Hence the chattel mortgage. We must have a machine—until statistics now show there are more than 7,500,000 of one make of machine in use in this country today. This method of travel has been cheapened—the purchase of a low priced car is not prohibitive—and the up-keep and gas are matters of future use never thought of and only dependent upon.

on the every day travel of the car. But then we must go somewhere and in comparison with the pleasure and probably health gained the cost is negligible. And it takes money—a home, no—an auto, yes.

The evils in connection with the automobile are many—as in every good thing in this world—but the advantages are even greater. Many have lived in their own locality where they were born possibly, without a fair estimate of the beauties of nature within a few miles. Today they know more of their own country, their own state, their own nation. The automobile educates along many lines. The whole family goes together, and the sum of the benefits that have come to American citizens ship makes the sum of the evils infinitesimal.

And the tourist camps help—and today such a camp is an institution in every city, crowded with tourists seeing America cheaply.

The auto is changing the map of the country. The old time country church is disappearing, as people go to the larger nearby towns to attend, or spend the day in speeding thru the country or visiting friends that a few years ago were too far away. It is becoming more and more a necessity for every family—and the benefits are many, the evils comparatively few. Hard roads and the manner of living, the habits and even the manner of thought and ambition of the American people. And it is probably for good.

THE PROPOSED COUNTRY CLUB

The park board after looking fully into the situation, adopted a resolution recommending that the city council lease a tract of land in the northeast corner of Mauvaisterre park for a proposed country club. The city council approved the project and has agreed to lease the acreage for a period of years at a rate of \$11 per acre.

Adjoining this tract is another acreage owned by Moriah county, and the commissioners have agreed to sell this land for country club purposes. The land is a part of the tuberculosis sanatorium grounds and the proposal for its sale at a satisfactory price had the approval of the tuberculosis board.

Jacksonville men interested in golf are the projectors of the country club and propose an expenditure of approximately \$50,000 for the building of the Victory Memorial drive to the grounds, the erection of a club house, the seeding and making of the grounds into a golf course. It will be some job to raise this money. The expenditure will mean an added beauty spot for Jacksonville.

The special reasons for the proposed golf course and club house can be found in the need of Jacksonville for a country club and the further fact that the Nichols park golf course of nine holes is entirely insufficient for the number of people who now wish to play golf.

The park board is receiving all that is possible thru taxation and there is no chance of increasing its funds for many years to come. This means that the tract which is to be leased for the country club project would remain unimproved and not available for park purposes.

Objections are being made to relinquishing of public grounds for a private club. It should be remembered however, that the land adjacent to Mauvaisterre lake was purchased in connection with the water project. It was available to buy all of certain tracts instead of just the part needed for the lake because it was cheaper that way. The leasing of the land for park purposes will in no way interfere with the development of Victory drive around the lake, and instead will aid in its becoming an accomplished fact.

No one can say that Nichols park is not spacious enough for Jacksonville unless there is much more rapid growth of the city in the next 25 years than has been true in past years.

The only congestion is that on the golf links, and the using of a part of Mauvaisterre lake land for country club and golf purposes will relieve that congestion. It's going to cost a lot of money to develop this new project, and if people can be found in Jacksonville willing to pay for the betterments because of their interest in golf, why not let them do it?

The interest of the "common people" has not suffered. The only logical argument against the project is the possible increase in the value of the city and county lands during the period of the lease. But even this reason is a matter of judgment, and it takes quite a supply of optimism to believe that the land adjacent to Mauvaisterre lake would have any remarkable increase in value if made available for residence purposes.

WHITE RACE MENACED

BY ALBERT APPLE

Eight cases of racial hatred are discussed by Professor William McDougall of Harvard university. Here they are:

One—Expansion of population.
Two—Sex jealousy.
Three—The assertion or expression of a claim of superiority, associated with race pride.

Four—The claim of political ascendancy.

Five—Differences of religious belief.

Six—Economic rivalry, or exploitation of situations leading to slavery.

Seven—Nationalism (patriotism).

Eight—Desire to defend a national culture against disintegration.

It stands to reason that there wouldn't be any racial antagonism to speak of, if every race had for each of its individual members as much wealth, freedom, intelligence and geographical desirability (including land acreage and fertility) as the individual of other races.

So-called racial antagonism is a highbrow name for jealousy. The supremacy of the white race is menaced because the white race has cornered more than its numerical share of humanity's natural resources, intelligence and desirable climate.

Higher scientists of the white race are worried about the world's constantly increasing population. The more population, the more people to envy white possessions. Asiatic yellow and brown races and the black race in Africa are multiplying much faster than whites. The white man, incidentally, is increasing the numerical strength of his rivals by sending millions of dollars and medical brains to curb diseases which for centuries has destroyed a large part of the colored races' overpopulation.

Whether the white race, in this humanitarian way, is sowing the seeds of its own destruction, time will show.

Even more important than the life-saving is that we—in our desire for foreign markets—are raising rival races to a standard of living beyond what can be supplied by their own acreage and natural resources.

However, nature's law of the survival of the fittest is not going to be repealed.

HARD ROADS MEAN TRAVEL INCREASE

Quincy Newspaperman Writes An Interesting Vein of Motor Trip to New York City.

John A. Schoeneman of the staff of the Quincy Whig-Journal has just about completed a motor trip from Quincy to New York and return. Mr. Schoeneman has been writing a series of letters to the paper with which he is connected.

The following paragraphs are taken from his final letter, in which he mentions that the Meredosias and the Rushville detour are about the only missing links in a long journey over a chain of hard roads.

Mr. Schoeneman was evidently greatly impressed with the way that the people in the east are turning the immense tourist travel to their business advantage.

"Lizzie" loped in her into Chicago this afternoon from Toledo, leaving there in a rainstorm early in the morning. But rains make no difference to the tourist, once beyond that famous gap between Mt. Sterling and Rushville. In a drive of about 270 miles there was no such thing as a muddy road. The same was true of a drive of 300 miles from New York City through Albany and as far as Syracuse, most of it in the rain.

In a trip of 2,200 miles thus far, through the states of Indiana, Ohio, West Virginia, Maryland, Pennsylvania, New Jersey and New York, as well as a short touch of Michigan, every foot of which, through the Allegheny mountains and all, was paved either with concrete, asphalt or bitulithic masadam, except a small strip in Indiana, which was graveled—that is, all except the abominable bottoms at Meredosias, or the Rushville detour.

Just think of being able to go anywhere east of the Mississippi and north of the Ohio on a hard road—except the connection which would place Quincy and western Illinois on the map.

Traffic Is Tremendous
This is the third summer I have made a motor tour, and each time during the month of August. This year the number of tourists far exceeds the past two years. Over the Buffalo-New York route, the Lincoln highway, the National highway, or any of the trunk routes, a part of each of them being covered in one section of the country or the other, they swarm over the roads like an army, flying back and forth in such numbers that at times motoring becomes difficult, particularly when, because road repairs or on detours, one way traffic rules are observed.

The hotels of the different cities and the tourists' camps are filled with them. Down in Cumberland, Md., where we landed one night and sought rooms at the new hotel there, we were turned away, and the clerk said this condition had prevailed all summer. The city is smaller

White Mule

Canadian rum sleuths claim there's a pipe line carrying "white mule" from Michigan into Ontario. We are so "dry" under prohibition that we are exporting liquor to Canada!

Ontario is the last of the big Canadian provinces (states) in the dry list. Others have returned wet after trying prohibition, except Quebec, never dry.

Americans who go to Ontario and buy "back-door" hooch from bell-boys may be getting Yankee product colored and labeled. It's the most interesting of the major industries.

The
A man reveals his real self by the way he wears his hat, claims Dr. C. W. Kimmins of University of London.

He says a hat well down over the forehead indicates a thoughtful, solemn wearer. Pushed to the back of the head, it advertises happy-go-lucky. Tilted on the right side, the owner is usually a rowdy. Slouched to the left, is the customary position of a mental deficient.

Women are intuitively wise when they fuss about getting their hats on at just the right angle. It's the most important trick of make-up. Maybe the best way for a man to play safe is to wear none at all.

Russia
Russia claims that her foreign trade in six months totaled nearly 252 million gold rubles.

This compares very favorably with 120 million gold rubles in the corresponding six months a year ago.

But it's only a fifth of the pre-war average.

Ghost
French inventors claim they have perfected a "ghost plane"—airplane without crew, piloted by wireless, carrying explosives to be dropped on enemy armies by radio control. This is about the one hundredth time such an invention has been announced. Of course, it's quite possible. More than that, inevitable.

You'll notice the claim for this uncanny plane is that it can deal out death. No boasting about economies in transporting mail or express to far distant or hard-to-get-to places.

The airplane, to date, is primarily a war device.

than Quincy, has many hotels, the newest being larger than anything in Quincy. In Syracuse, Utica, Toledo, Buffalo, or anywhere along the main routes the tourists are spending oodles of cash.

Alive to Value of Traffic

The cities of the East are alive to the value of this traffic and go after it. If they do not happen to be situated on a through route, they make every effort to draw the motorists.

Those who have never made an extended motor tour cannot appreciate the great volume of traffic which flows backward and forward across the country on wheels.

I wish to reiterate that Quincy could do worse things than promote a proposition which would bring these motorists through there. However, until there is a connecting hard road in Missouri out of West Quincy most of the Eastern tourists are going to remain where they are able to travel, rain or shine. With this connecting road a bridge would become a necessity, just as it has at several places in the East.

Illinois in the Van
When it comes to the matter of good roads, Illinois is in the van, in the opinion of L. L. Boyer, county superintendent of highways of Adams county, who is one of this party making the tour this summer.

He says that while our road system may not be as complete as some of the states he was through, what is done cannot be surpassed by the others except where the concrete has been resurfaced with asphalt, something which will have to be done in Illinois as the concrete begins to give way. Its system of road marking is also more complete than any of the other states, he asserts.

Communications

In this column the Journal will give space to communications from readers on subjects of general interest. Names of writers must accompany manuscripts even if the names are not printed.

Editor Journal:

In Tuesday's Journal appears an article regarding the leasing of a part of the grounds surrounding Mauvaisterre Lake to private parties for a term of twenty five years, it being the intention to establish a Country Club on these grounds, a part of the improvements to include a club house and golf links.

I believe it is the impression of a majority of the people that this land was obtained by the city with the intention of developing it into an additional city park and if all of the land was not needed for that purpose it would seem that it should have not been secured; furthermore, if it is found now that the park is larger than the finances of the city can afford to develop it, it would seem that the proper move would be to sell this plot outright to the proposed Country Club or to anyone else who might bid more for it.

It is not clearly stated in the Journal article as to the status at the end of the 25-year period, but I have been informed that at the end of that time the city may have the privilege of taking back the leased ground by paying the Country Club the amount expended by them on the grounds. Wherein lies the advantage for the city? If, as has been stated, the city is not able to go ahead with the park development and probably will not be in the course of the next twenty-five years, how is it going to help financial matters by being forced to take over club house, golf links, and all, at the end of that period at a cost which rightly distributed, would make some improvements all over the tract?

Further, the writer fails to see the benefit to be derived from a club-house, and additional links in a place where extra caretakers would be necessary; it would either be this or an extension of the lease at the end of that time to the Country Club. If it is primarily for the improvement of the grounds, it might be suggested that another slice be leased to the Rotary Club, another to the Kiwanians, and still others to the Lions or other clubs of the city, so that the park which was originally intended as a whole, for the "common people" may be developed privately and the aforesaid masses may stand and worship its beauty from afar, remembering the maxim, "Touch not, handle not."

The statement has been made that this organization is not intended as an exclusive one, but in the next breath it was further added that the Club board would have full control as to whether trespassing would be allowed in the public park, privately leased in part. At the end of the lease period if the property reverted to the city it might be found that the city possessed another white elephant (see Widenham-Daub wells and other abandoned projects.)

Without intending any insinuations, I leave it to the fairness of all readers whether or not country clubs as a rule are known as places which are entirely bone-dry and remain that way. If the truth is not dodged the fact must be conceded that in by far the greater number of instances, a country club develops more or less into a place where the favored few go for a little fling on privately leased property, or perhaps engage in friendly little games of chance on which the stakes may run very high, with the authorities seemingly powerless to interfere, while a penny-ante poker game or "shoot-a-nickel" crap game will suffer a raid by the minions of the law. The inquiry might be pertinent here, whether the membership list will be entirely thrown open to the public, or whether the membership will be picked, in the face of the statement that this is not an "exclusive" move. I, myself, am not an addict to the cow-pasture pool habit, but along with many other residents of the city enjoy parks developed for the benefit of the people of the city as a whole.

P. L.

To the Editor of the Journal:

In answer to "Taxes Should be Lowered" I agree with Mr. Culp that no doubt there is plenty of extravagance in the Administration of Morgan County's Affairs. And he might have added that if some of our wealthy citizens that have their wealth in personal property would turn in just a reasonable amount of their wealth to the assessor it would help some. I noticed in the printed list of personal property in the Journal this spring, where one of our wealthy citizens reported to the assessor just a little more than \$1000.

But Mr. Culp left out the real cause of our high taxes. He forgot all about the hundreds and I might say thousands of positions, created all over the State of Illinois, to be filled by men and women whose principal duties are political. I understand that Mr. Culp is filling one of these positions, although he says he is a farmer, but lives in South Jacksonville. The Good People pay the Bills.

I would like to ask Mr. Culp why the Great State of Illinois has had an increase of 260 percent in the cost of Administration in the last ten years, while the National Government of the United States had an increase of 217

percent during the same time. Why should it cost 43 percent more to increase run the State of Illinois than it did to run the Government?

Yes I think it is time for the Good People of the State of Illinois to wake up as well as those of Morgan County.

I would very much like to see the Republican Party of Illinois united, but the only way in sight is to elect Norman L. Jones for Governor this next election. I am a Republican and always

have been but if I am allowed to live until election day, and am able to get to the polls I shall vote for Norman L. Jones whom I believe to be an honest man. Fred W. Sibert.

JEREMIAH SIEBERT

(BY ENSLEY MOORE)
Member Illinois Historical Society

One of the best known early residents of Morgan County was Jeremiah Siebert.

A sketch of him appeared in an "Atlas Map" published by Andreas, Lytle and Co., in 1872.

A part of it follows:
"Jeremiah Siebert was a native of Monroe county, Virginia, born June 26th, 1805. He was the seventh child of George and Susanna Siebert, who had a family of eight children; four of whom are still living. His occupation while living in Virginia, was farming. George Siebert was a native of Germany, who came to this country during the Revolutionary War; after which he settled in the "Old Dominion," where he became acquainted with his wife, Miss Susanna Smith, whose line of ancestry was English. In 1818, he removed to Ohio, which, at that time, was in its infancy as a state. He removed from Ohio in 1835, and settled in the present limits of Scott county, Illinois. Mrs. Siebert died at their residence, January 12, 1838. Mr. Siebert died also in November, 1845. Through life he was a man of industrious habits, a marked trait which he transmitted to his children. In his political views, in the days of Jefferson he was a republican, and later in life a democrat.

"Jeremiah Siebert, in his early life, was deprived of the advantages of a liberal education. He was thirteen years of age when his father left Virginia; where the facilities for even a common school education were poor, and in Ohio, in the neighborhood where his father settled, owing to the sparseness of the population, the opportunities were almost as deficient as in Virginia. In Ohio he became acquainted with an amiable young lady, Miss Eliza Wilday, daughter of Thomas and Eleanor Wilday, citizens of Pike County, Ohio, formerly from the state of Delaware.

He was married on the 15th of November, 1831. Mrs. Siebert was a native of Ohio, born May 5th, 1810. As a fruit of this union they have had twelve children, five of whom are now living. After his marriage Mr. Siebert engaged in farming on his own account, in Ohio, where he resided till 1835, then with his family, he moved to the present limits of Scott county, Illinois. After a residence of a few months, he removed, in January, 1836, in company with his brother Gideon (who now resides near him), and located near the bluffs, about four miles east of the village of Meredosia. Here they bought several hundred acres of land on the rich Illinois bottom, where he became quite largely engaged in raising grain, as well as stock, to some extent. Mr. Siebert had some means to begin with, when he first came to Morgan County. Although his capital was small, he possessed that energy and perseverance, added to habits of economy, which are better than capital, and to

their possessor a guarantee of success, especially where, as in this case, they are accompanied by a good physical constitution. Possessing these elements largely, Mr. Siebert succeeded in acquiring considerable property in land. He sold his farm, on which he first settled, in the spring of 1866, to his brother-in-law, Jeriel Wilday. Mr. Siebert purchased the well known "Diamond Grove" farm, situated south of the city of Jacksonville, which at that time contained six hundred and forty acres, on which he now resides, owning at the present time more than half of his original purchase. It is a good farm, and, being contiguous to the city, is very valuable. Mr. Siebert still owns several hundred acres of the rich, alluvial bottom land, near Meredosia, which is located in one of the best growing sections of the states. Mr. Siebert was one of the old citizens of Morgan county. Coming into the county at an early day, he, in common with the old settlers, had to suffer the privations of a pioneer life. Mr. Siebert's fourth son, Alexander, enlisted in the 1st Missouri Cavalry, Company G, being enrolled August 1st, 1861. He participated in the battle of Pea Ridge, and the minor battles and skirmishes in which the regiment was engaged. The fatigues and privations of camp life undermined his constitution, and he became the victim of disease. He was prostrated and after remaining for some time in the hospital at Helena, Arkansas, he was sent to Jefferson Barracks, Missouri, where, on the recommendation of Governor Yates, he was honorably discharged, Feb. 14, 1863. His father brought him home, where he remained, living but a short time. He died March 1st, following. He was one of the noble martyrs, who so freely offered up their lives for their country.

"Three of Mr. Siebert's living children have been married; one son is a widower; one daughter a widow, former wife of Rev. John M. Lane, and Lydia, present wife of George Rector. George R. is now residing on the bottom, near Meredosia. In politics, Mr. Siebert was formerly a whig, but when that party became disorganized, he became a republican. He has acted steadily with the republican party since its organization, voting twice for Abraham Lincoln and at the last election for General Grant. In the life of Jeremiah Siebert we find lessons of instruction very valuable for the young man who has his way to make. He has a firm will and a constitution capable of great endurance. The great secret of Mr. Siebert's success in life consists in the combination of temperance, industry, persistence, and economy, which are so happily blended in his character. The word "fail" is not in his vocabulary."

Mr. Jeremiah Siebert died Feb. 2, 1880.

NO STATE OFFICERS OF LOUISIANA KLAN

NEW ORLEANS, La., Aug. 26.—Thursday night will be the last time in which the "Klans" of Louisiana will meet officially as the Ku Klux Klan. The Times-Picayune will say tomorrow. After that date there will be no official organization of the Klan in the state, the membership being directly under the national headquarters at Atlanta.

Continuing the article says: "The anti-secret society laws passed by the recent legislation requiring all organizations to file a list of their members with the secretary of state in December each year, and which this year must show the membership from September 1, is the cause of the Klan deciding upon this course. The law requires the officials of an organization to file the list, and the only penalty provided is against the officials who fail to make such sworn lists. There are now no state officials, these having been removed recently by Imperial Wizard Evans."

CROWE INSISTS ON SENTENCE OF DEATH FOR BOYS

(Continued from Page One)
"These children," he cried, pointing to the defendants, "these two poor sons of multi-millionaires, are here pleading for the mercy of this court."

"Your honor, these boys are entitled to as much mercy as rattlesnakes, flushed with venom and coiled ready to strike; as much mercy as two mad dogs. The only use for them now is to go out of this life as quickly as possible at the hands of the law."

Law Supreme
The prosecutor replied also to the implied charges in the defense argument which, he said, held him up to the world as a "cold-blooded and earless monster crying for the blood of two youths." His answer was the law.

"Neither you, as a judge, nor I, as a state attorney has a shred of right to forgive injuries to the laws, which we are sworn to defend."

Mr. Crowe also discussed in an ironical vein the evidence concerning "split personalities."

"We have heard so much about those personalities in this case," he said, "that I was surprised to find in the personality of the eminent apostle of humanitarianism who preceded me, so much poison."

Mr. Crowe probably will continue thru the entire day tomorrow.

FORTY AND EIGHT INITIATES MEMBERS

Many Veterans Taken Into Local Organization at Tuesday Evening Meeting.

A large number of candidates were initiated last night into the mysteries of the Forty and Eight, at a meeting held at the American Legion hall, beginning at 7:30. The veterans taken into the organization included one from Peoria, one from Springfield, and six from Pittsfield. Fifteen were to have come from Pittsfield, but some were delayed by the high water, which prevents the ferry at Florence from operating at night.

Local war veterans who were initiated last night included the following: E. C. Brasel, Fred B. Taylor, Fred Main, Floyd Fry, Roy Clifton, Lawrence Redburn, Carl E. Newport, Edwin Echhoff, C. E. Hamilton, William S. Ritter and Denham Harney.

WILL TAKE ENGINE TO STATE MEETING

Local Veterans Will Run Replica of French Locomotive to Champaign Soon.

As a part of their campaign to elect Homer G. Bradney of Jacksonville as state Chief de Gare

local war veterans have prepared an exact replica of a French steam locomotive and an accompanying freight car, to be driven from here to the state conventions of the American Legion and the Forty and Eight, held at Champaign September 1. This unique procession will leave Jacksonville next Saturday morning, and will travel by way of Bloomington.

The veterans' engine is made of sheet iron attached to a Ford

chassis. The construction work was done at the Jacksonville State hospital. Smoke from the motor's exhaust pipe, augmented by mixing oil with gasoline, will be made to issue from the engine's chimney.

The box car, built at the Illinois State School for the Deaf, will be hooked to the locomotive and will carry the Raskus Jazz band of this city to the state meeting. A large number of Jacksonville veterans are planning to be present at the Champaign gathering.

FUNERAL THURSDAY FOR BLUFFS BABY

Bluffs, Aug. 26.—Geraldine, the ten months old daughter of Mr. and Mrs. Elmer Lankford, passed away at 9 o'clock Tuesday while enroute to a hospital in Jacksonville. Little Geraldine was taken suddenly ill about a week ago and from the first her condition became critical.

On Tuesday her physician advised that she be taken to the hospital but death claimed her before she reached her destination. She was a beautiful and loving child. In the better baby contest at the M. E. church picnic Aug. 8th, she was a perfect picture of health and won first place for girls in the contest. Besides her parents, Mr. and Mrs. Elmer Lankford, she is survived by twin sisters, Bernyce and Beatrice.

Funeral services will be held at the M. E. church at 2 o'clock p. m., Thursday, the Rev. LaVerne Barkley officiating. Interment will be made in the Green cemetery.

INDICATIONS POINT TO DIMINISHED CROP OF APPLES IN STATE

Middle States Will Be Reduced With Big Production in East.

SPRINGFIELD, Ill. (AP)—Indications that the apple crop in Illinois would fall far below the production amount for 1923 were shown in the monthly report on apple production, compiled by A. J. Surratt, agricultural statistician today. The August commercial estimate was set at 667,000 barrels, as compared with 1,351,000 barrels last year.

Blight and unfavorable weather were the principal causes for the decrease in production in the state, according to Mr. Surratt. Calhoun county, which normally produces one-third of the apple crop of Illinois, is reported to have only 35 percent of a full crop this year. However, the fruit is of good quality and promises to be large in size.

The total production of apples in Illinois is estimated at about half a crop or 5,293,000 bushels. Commercial apples are listed as 45 percent of the crop, with production at 667,000.

The total crop for the United States is estimated in the August estimate to be 184 million barrels, compared to 197 million barrels last year. The total commercial crop prospect of 29 million barrels is above the total crop in all states last August.

Ohio, Michigan, Missouri and Illinois will have smaller crops this year, the report said, while production in New England, New Jersey and Virginia will be larger.

Rainy days, favoring infection, and making control difficult have caused an epidemic of the apple scab in the east, which is unusually bad.

A few counties in southern Illinois have a good crop of peaches while elsewhere many failures are reported. The state peach production estimate is 323,000 bushels, as against the 675,000 of last year.

The United States peach crop this season is announced to be unusually favorable, with production for the country as a whole placed at 52 million bushels compared with 45 million bushels last year.

JAPAN IS URGED TO REJECT AMERICANISM

TOKIO, (AP)—An article in the newspaper Kokumin, written by Kanzo Uchimura, one of the most outspoken leaders of the movement to separate the native Christian churches of Japan from the American missionary bodies, urges the Japanese to "get away from the Americanization which has been infecting our national life for the last five years."

Uchimura, himself a Christian, has for several years worked as an independent missionary without American help. He has been one of the leaders of the popular protest against the American immigration act excluding Japanese.

Referring to the agitation for the boycott of American goods, Uchimura writes: "The American way of living, the American civilization, is more poisonous than anything else manufactured in the United States. Few Japanese are aware of the extent to which our country has become Americanized. Our newspaper advertisements are in the American style. The sensational tone of our journals with their headlines is nothing but an Americanism. In these matters the British way is far superior to the American. Our papers should follow the example of such moderate, respectable journals as the London Times and the Manchester Guardian."

"The so-called cultural movement which has been going on in Japan for the past four or five years has been nothing but a process of Americanization. When Japan dispenses with the American way of living she will easily and without inconvenience be able to dispense with American goods."

PATIENT FLEES AND MISSES OPPORTUNITY

Mystery of Harrison Might Have Been Solved if He Had Remained at Hospital—Lady from Maine Sought Brother.

The man calling himself William Henry Harrison, who was recently picked up in this county and placed in the care of the Jacksonville State hospital, has escaped, and that at a time when there may have been some chance of learning his real identity. A woman residing in Maine had seen the letters and advertisements concerning Harrison sent out by the hospital authorities. Believing that he might be her lost brother, she had decided to come to Jacksonville to see him. When Harrison ran away, it was necessary for the authorities to send her a message telling her not to come.

Harrison, it will be remembered, showed signs of a liberal education and appeared to have good family connections, which seemed to be somewhere in the east. The hospital management made a thorough search for his relatives, and the response from the lady in Maine was the only clue offered as reward of their efforts. Harrison slipped out of the ward in which he was kept when a number of the patients were being taken to the picture show. Harrison was one who was not supposed to go to the show, but in some way he managed to get out with the others. Then instead of going to the show, he made his escape from the institution, and has not since been heard of.

TO HAVE CENTENNIAL CHAUTAUQUA IN 1925

Directors Vote to Celebrate Anniversary of City at 1925 Assembly.

The Jacksonville Chautauqua for 1925 will be known as the Centennial Chautauqua, in celebration of the one-hundredth anniversary of the city's birth, according to vote taken at a meeting of the Board of Directors Tuesday evening. The dates will be August 21-31.

At the meeting last night, much satisfaction was expressed over the success of the 1924 assembly, just ended. Complete reports for this year's Chautauqua are not yet ready, but will be presented at a later meeting of the directors. 137 tents were on the grounds this year. This is an advance of twenty over the previous record.

Chautauqua bureaus have been notified of the dates for the 1925 Jacksonville Chautauqua, and will send representatives here soon to confer with the local program committee. It is expected that within the next ten days, the program for next year's assembly will be partially outlined. The following officers were elected for the 1925 Chautauqua: President—A. C. Rice; Vice President—J. W. Merrigan; Secretary—Walter E. Spooner; Treasurer—William A. Fay.

HOME COMING PLANNED FOR SCOTT COUNTY

Plans For September 11 Formed At Mass Meeting Held at Court House.

Winchester, Aug. 26.—Plans for the Scott County Homecoming Burgoon to be held here September 11, were formed at a mass meeting held at the court house Monday evening. Dr. B. S. Webster, mayor of Winchester, acted as chairman, with E. S. Boos as secretary. The homecoming will be held at Monument park.

S. H. Allen, Claude Thomas and Dr. B. S. Webster were chosen as an executive committee for the affair. The advertising committee is composed of Ralph Thomas, Dr. William O'Reilly and George Hogan. Other committees will be announced later.

George Patrick moved Tuesday from the Fletcher farm south of town to property on South Main street recently vacated by Carl Woodall.

Dr. B. S. Webster was called to Milton Tuesday by the death of his father, who has been ill for some time.

Myron Ellis of Wichita Falls, Texas, spent the past week-end at the home of Mr. and Mrs. Grant Mazer.

The Misses Olive May and Daise Wells and Mrs. Robert Hawk are leaving Wednesday morning on a motor trip to Rock Island, Illinois, and Davenport, Iowa.

Mr. and Mrs. Charles Doyle and Mrs. Gertrude Denerath and son, Nicholas are departing Wednesday for Davenport, Iowa, whence they will proceed to Ohio.

HARD ROAD BEYOND FLORENCE OPENED

Further information was received in Jacksonville yesterday regarding water, ferry, and road conditions in the vicinity of the Florence crossing.

The river at Florence had risen an additional four and one half inches Monday night, and the prediction indicates a still higher rise. However, the ferry, which is now running at the old ferry landing south of the hard road is in constant use and so far as traffic has not been impeded. The hard road from the river and tourists for traffic yesterday was opened for the first time to the right from the ferry landing and take the new hard road, instead of going to the left over the detour, as formerly.

There are now three crews working on the hard road strip between Winchester and the end of the present hard road one half mile north of Lynnville, and the concrete laying is proceeding rapidly with the completion of that strip in sight in the very near future.

PLANS DISCUSSED FOR CHURCH CLUB

At a luncheon meeting Tuesday, officers of the Federated Men's club discussed plans for the club's program for the coming year. Those present included S. E. Albrecht, president; L. B. Turner, vice-president; Arthur G. Cody, secretary; Harry Clement, treasurer and Carl Gordon, past president.

The first regular club meeting of the year will be held September 15, probably at either the Westminster or the Central Christian church. Another meeting of the executive committee is to take place next week.

PASSAVANT HOSPITAL NOTES

Mrs. S. H. McDevitt of Franklin entered the hospital Monday evening.

Miss Geneva Nichol of Hadley was admitted as a patient Monday evening.

Richard Davis of North Diamond street entered the hospital for a minor operation Monday.

Edna Campbell of Route 1 was admitted Tuesday for a tonsillectomy operation.

The Passavant staff has found that the maintenance of a tent at the chautauqua grounds has been well worth while. During the ten days, eighty-three patients were given first aid at the tent, in addition to the comfort furnished for employees and friends of the hospital. One nurse was in charge each day and was usually assisted by a second nurse in the afternoon; each night, two or three nurses spent the night at the tent, accompanied by a chaplain, returning to duty in the morning, this furnishing an outlet for the different nurses.

GEORGE H. DUNAVAN CALLED BY DEATH

Long Time Resident of Jacksonville Succumbs Suddenly at Daughter's Home—Funeral Thursday Morning.

George H. Dunavan, aged 81, died at 7:30 Tuesday morning at the home of his daughter, Mrs. J. F. Shreve, 1102 South Main street, after a brief illness. Funeral services will be held at the Shreve residence Thursday morning at 10:30 with the Rev. A. P. Howells in charge. Burial will be made at Diamond Grove cemetery.

Mr. Dunavan was born at Carthage, Ill., May 4, 1843, the son of Samuel and Clarissa Dunavan. At the age of eighteen years, he enlisted in the Union army, serving through the Civil war and attaining the rank of first lieutenant.

The decedent was engaged in railroad work for twenty years serving as roadmaster of the J. S. E. Subsequently he was in the grocery business in Jacksonville for many years. For eight years he served a chief of police. He filled also the positions of alderman and street commissioner.

Mr. Dunavan long held membership with the First Baptist church in Jacksonville, holding various offices in the church organization. He was a man faithful in every relationship of life, and it was because of these many qualities that he discharged the duties of the various public offices he held with more than usual fidelity.

His war record was unusual and he was greatly interested in the affairs of the G. A. R., of which he was a member. He also held membership in Urania lodge No. 243, I. O. O. F., and the Modern Woodmen.

In 1867 Mr. Dunavan was united in marriage with Miss Hannah Sample who preceded him in death in 1912. To this union, two daughters were born, Mrs. Joseph F. Shreve and Mrs. Dennis Schram. In 1913 he was joined in marriage with Mrs. Mattie Lillard, who survives.

About eleven years ago, Mr. Dunavan moved to Oklahoma City, and thence to Blackburn, Missouri. He was visiting in Jacksonville when death overtook him.

It was given to Mr. Dunavan to have more than the average span of life and they were useful years of active service almost to the time of his going. Although he had not been a resident of Jacksonville for a number of years, his many friendships here were fully maintained and many people will learn with regret of his death.

JACKSONVILLE BOYS AT TUCSON IMPROVE

Recent word received from A. D. "Bud" Molohon, who left Jacksonville for Tucson, Ariz., late in the winter for the benefit of his health, has fully recovered and now holds a position with the government as forest ranger. Mrs. Molohon and baby Patsy expect to leave in about a week to join Mr. Molohon with the intention of making their future home in Arizona.

W. D. Ribelin, "Bill," well known on College Hill, who left Tucson shortly after arrival for Sawtelle, Calif., has returned to Tucson and is now in the government hospital at Pastime Park, Tucson, and writes that he is showing wonderful improvement since his return from California, although there is still some tubercular activity existent, which does not seem to have a very bad effect as his weight is now up to 165 pounds.

SCOUTS TO SERVE AT COUNTY FAIR

Local scouts are arranging to maintain the same sort of service at the county fair as they had at the chautauqua. They will have a tent and will provide a free checking booth for the convenience of visitors.

Another new tent on the grounds this year will be that which will house an exhibit from the Illinois School for the Blind and the Jacksonville State hospital exhibit will be provided by the state, and will be one of considerable interest.

It has been announced that R. W. Dodsworth of Franklin will offer a special prize of \$25 at the fair for the best pure bred draft stallion and three of his gets exhibited on the grounds. The J. W. Lane Clothing Co., has also offered a special prize of \$19 for the best pure bred draft mare with foal exhibited at the fair.

DR. HARKER TO SPEAK AT ILL. CONFERENCE

Dr. J. R. Harker, President of the Illinois Woman's College, will address the Illinois Conference members at their centennial meeting speaking on the subject, "A Century of Educational Advance in the Illinois Conference." The meeting will be held in Bloomington, between the dates September 8 and 14, and will include a program which features an outline of the historical events of the past 100 years, relative to the Conference growth.

Dr. Harker, in looking over some old conference minutes and reports of Conference visitors at the Woman's College, found an interesting example of the educational advance of the last quarter of a century which illustrates the limited vision of the Conference visitors of that time, in regard to future educational development. In 1900 term the Woman's College Library was added to the Woman's College buildings. "Now," the Conference visitors reported, "the College buildings are as large as they will ever need to be."

"The very next year, in 1901," Dr. Harker stated, "in the report of these same conference visitors, they tell that the college was crowded as never before, and that another large addition was a necessity. The addition was made in 1902, and since that date, Music Hall, the College Cottage, Harker Hall, the Gymnasium, the David Strawn Library and the Power House have been added, and at least two more additional buildings are a necessity."

DEATHS

Daily
James Dailey, former Jacksonville resident, died early Tuesday evening at Lewiston, Idaho. The remains are being brought to Jacksonville for burial in Diamond Grove cemetery, and are expected to arrive Thursday.

Wolk
The death of Wade Wolk, former Jacksonville resident, occurred at Litchfield, August 22, after an attack of typhoid fever. The body was taken to El Paso, Illinois for burial.

While in Jacksonville, Mr. Wolk was in the employ of the Jacksonville Engineering company. He drew the plans for the Second Ward sewer district, and assisted in mapping out other projects. Although his stay in Jacksonville was confined to six months, he made many friends here.

SERVICE LEAGUE HAS WISCONSIN VISITOR

Miss Margaret Spitznagle, secretary of the Bureau of Family Service, Oshkosh, Wis., was a caller at the Social Service League rooms yesterday. Miss Spitznagle had heard of Jacksonville's unique combination of public and private charities, and spent the day in familiarizing herself with the work. She commented on the economy of the plan, the absence of duplication and overlapping with other agencies.

The league dispenses in Jacksonville the public relief formerly given out by an overseer of the poor. Through its probation department, it follows all cases of delinquents and dependent children in Marion county, and it makes investigations and administers the mothers' pension for the entire county. During the school term the reports of absences in every ward school building are telephoned to the Social Service League between the hours of nine and ten a. m. The homes are promptly visited and the reasons for absences ascertained.

If it be a matter of inability on the part of the parents to furnish clothing, the matter is taken care of by the league and if a matter of indifference or obstinacy it compels legal attention. The superintendent of the league, is also city matron, working with the police when women and children are involved.

POSTERS UP TODAY FOR COMING CIRCUS

Advances card No. 1 for the Hugenback-Wallace circus will arrive in Jacksonville early Wednesday morning, bringing thirty-five bill-posters who will decorate the city, and surrounding country with lithographic banners and posters announcing the coming show.

The circus itself is due September 10, two weeks from today, and will be located on the Stout lot in the north part of the city. It brings 700 employees and 350 horses, and will give two performances, in addition to a colorful and musical street parade a mile long.

WITH THE SICK
George Hoffman, of Brown's Music store, was confined to his home with illness yesterday.

Mrs. Albert Duckett, 1105 Sandusky street who has been seriously ill for several weeks is slowly recovering.

Dr. and Mrs. Bert Trippier and son, Lee, and P. H. Hamm motor to Chapin Tuesday evening for a visit with friends.

FRANKLIN LADIES TO GIVE PICNIC PROGRAM

The Ladies' Aid of Franklin M. E. church will hold a picnic in the Franklin village park Thursday afternoon and evening. A program has been planned for the occasion, consisting of literary and musical numbers, as follows: Community song, led by Luther Wiley, "America."

AUTO ENTERS STORE
A Buick roadster, driven by Miss Ethel Weeks, tried to forcibly enter the store of Denny and Son at the corner of West Lafayette avenue and Pine street yesterday morning.

Miss Weeks was returning from a drive accompanied by the baby daughter of Mr. and Mrs. Arthur Denny. When turning from West Lafayette to Pine, the baby started to fall out and the young lady's first thought was to save the child from injury. The car climbed onto the boulevard, took off both covers of the gasoline filling pump and then proceeded through one of the large glass windows in the south part of the store, scattering canned goods in all directions. Neither of the occupants of the car were injured and the damage to the auto was very slight.

GOLD TIP
SHOVELS and SPADES
COST-per-day is far more vital than cost-to-day.
That's why you should get a really good shovel or spade the next time you buy.
The better quality, carefully tempered, highly polished steel blades make "Gold Tips" longer lasting. Extra strong handles hung just right give "Gold Tips" their wonderful balance and make them easier to use.
Quality lowers the cost of a shovel and spade by lengthening its life—that's why "Gold Tips" cost less than any others.

GIANTS WIN BY RALLY IN NINTH

Break Even on Series With With Cuts by Taking Final Game 11 to 9.—Young Bats 1,000.

CHICAGO, Aug. 26.—The Giants earned an even break in the four game series today by scoring four runs in the ninth and defeating the Cubs 11 to 9. Two errors by Grantham on ground balls that should have retired the side run in the ninth were followed by four hits. These hits were made off Alexander, who made his first appearance since his wrist was fractured June 25. He relieved Blake in the first inning when the Giants scored six runs. Young and Frisch starred in the Giant attack. The former delivered five successive hits one a double. Frisch got two doubles and a single.

The Nut Cracker

by Joe Williams

Mr. O'Goofy watched the scholarly gentleman adjust the lens of the giant telescope to his eyes and listened with inexpressible politeness as the scientist depicted the scenes which raced across his vision. "So help me, Hannah, if it ain't Mars!" exploded the scholarly gentleman.

"You don't mean Knockout Mars of Cincinnati?" ventured Mr. O'Goofy.

"Shush!" cautioned the s. g. As a rule Mr. O'Goofy will stand no shushing from anybody, but this time he remained strangely passive.

"I see the streets of Mars. I see pedestrians walking calmly about. There are no traffic cops or flivvers. I see handsome young women with long hair, naturally pink cheeks and unpainted lips. I see tailored suits for \$22.50 and business men's lunches for 25 cents, with milk or beer. I see—"

"Maybe if you got out of the hot sun you'd feel better," suggested Mr. O'Goofy.

The scholarly gentleman delivered another shush where it would do the most good and rattled on:

"I see a place entirely free of prizefighters and thick-necked wrestlers. I see a baseball league with eight first-place teams. I see pitchers grooving the ball for Babe Ruth with the bases loaded, golfers who refuse to talk about their game, bookmakers returning bets to losers on fixed races, Joe Beckett in an upright position and Connie Mack winning a world series. I see—"

"Now don't tell me that you see Firpo spending a quarter," broke in the provoked Mr. O'Goofy, or I take educated stove pipe and wrap it around your thyroid gland."

The scholarly gentleman's third gratuitous shush—really the best of the three, too—fell impotently on the air.

Mr. O'Goofy was last seen moving rapidly from the spot mumbering something about zaps, nuts and other adverbs.

PHILLIES BREAK EVEN WITH PIRATES

PITTSBURGH, Aug. 26.—Pittsburgh and Philadelphia divided a double bill today, the Pirates winning the first 6 to 1 and the Phillies the second 3 to 1.

Yde held the visitors to five hits in the first game, three of them being bunched in the fourth when the Phillies scored their only run. The second game was a pitching duel between Hubbell and Morrison in which Hubbell had a slight advantage. Bahe Adams, making his second appearance in the league game this year, pitched the last inning for the Pirates.

EPINARD LEAVES FOR BELMONT PARK

SARATOGA SPRINGS, N. Y., Aug. 26.—Epineard, French race horse left here today in a special train for Belmont Park and is due there early tomorrow morning. The first of the international races is scheduled for next Monday. Zev has worked five furlongs in one minute recently and now is regarded as a sure starter.

The Western contingent has two strong prospects in Wise Counsellor, owned by John S. Ward, and his partner and Baffling, owned by E. R. Bradley. Jefferson Livingston recently offered \$60,000 for Baffling but it was refused.

JEFFRIES-FARRELL MATCH GOES 21 HOLES

Second Day of City Golf Tournament Produces Some Good Play—First Round Ends Tonight.

In additional play in the first round of the city championship golf tournament at Nichols Park yesterday another top-notch game developed when Wilbur Jeffries and Felix Farrell, Sr., went 21 holes, Jeffries winning 1 up. Last year Farrell was forced into an overtime game of 20 holes, winning the match. Walter Wright shot the lowest nine hole score, making it in 37; while Wood Phillips holds the record for the 18 holes, hanging up a mark of 78, with Hubbell close behind with 79. Two caddies, McGraw and Worrall are showing up well in the second flight.

All games of the first round are to be completed today ready for the beginning of the second round. The games played yesterday are given below:

Dunlap beat Pyatt, 2 up.
Flood beat Wright, 4 up.
Fry beat F. L. Gregory, 6 up.
Hubbell beat Chapin, 3 up.
Geo. Johnson beat Cully, 3 up.
Phillips beat Barnes, 7 up.
McLaughlin beat F. Farrell, Jr., 5 up.

Jeffries beat F. Farrell, Sr., 1 up in 21 holes.
Worrall beat Hutchinson, 3 up.

I. S. D. TIGERS WILL REPORT NEXT WEEK

Coach Robey Burns has decided to get an early start in conditioning the I. S. D. Tigers for their fall schedule and has ordered 23 of his warriors to report at the school on September 3 for an intensive course of preparatory football work.

The Tigers are very lucky for the start of the season, having all of their last year's regular team for this season if all of them return, as none of the regulars were lost by graduation last year and with but three of the second string squad leaving school at that account. The showing of Burns' men last season was excellent and with a season's experience back of them, and the added early training period this fall, no reason can be seen why the Tigers should not be among the topnotchers on the prep school gridiron this fall. The team has always been a popular one where ever they have played and a host of boosters will follow their movements closely until the close of the season.

REDS SHUT OUT BRAVES 7 TO 0

CINCINNATI, O., Aug. 26.—Donohue was at his best form today while the Reds hit Benton for many long drives, Cincinnati winning the last game of the series from Boston 7 to 0. Danforth had two doubles and a triple in five times up.

Score:
Boston 000 000 000-0 4 3
Cincinnati 014 000 02x 7 12 0
Yeagin, Benton and Gibson; Donohue and Wingo.

ANOTHER HELEN WILLS

Miss Suhr of 'Frisco a Coming Star, and Her Partner is Better Than Average

LEFT, BETTY THORNE; RIGHT, WINIFRED SUHR

By NEA Service.
San Francisco, Aug. 26.—Another Helen Wills. That's what they are calling little Winifred Suhr of this city who recently won the singles championship of the Pacific northwest. She is barely 18, yet she has won over a number of ranking players of this section. Her partner in doubles, Betty Thorne, is another young star of great promise. The two recently won the British Columbia doubles title.

FEATHERWEIGHT TITLE IS PUT ON MARKET

New York, Aug. 26.—The world's featherweight boxing crown, returned to the state athletic commission last week by its owner, Johnny Dundee, because he had outgrown it will be placed on the open market for the 126 pounders soon, the commission decided today.

HAUSER'S HOMER IN TWELFTH WINS GAME

Takes Twelve Innings For Athletics to Humble White Sox 4 to 3—Rommel Gets Split Finger in Eleventh.

PHILADELPHIA, Aug. 26.—Joe Hauser, Philadelphia first baseman drove the ball over the right field wall in the twelfth inning today, defeating the White Sox 4 to 3. It was Hauser's 21st homer of the season and Chicago's thirteenth straight loss. Rommel retired from the box in the eleventh when a drive from Mostil's bat split a finger on his pitching hand.

STRIBLING TO MEET BERLENBACH TONIGHT

Although Only Six Round Encounter Bout is Creating Great Interest—Georgia Schoolboy Favorite.

NEW YORK, Aug. 26. (AP)—Paul Berlenbach, New York light heavyweight, will face the acid test tomorrow night at the Velodrome A. C. when he squares off with Young Stribling, sensational Macon, Ga., school boy boxer in a six round encounter. Despite the brevity the match has excited intense interest in pugilistic circles.

The match was originally scheduled for the Yankee stadium June 2 as one of the head liners of the Milk Fund bouts but an injury to Berlenbach caused a postponement.

Stribling who has been training with Firpo at Saratoga Springs wandered back to New York today and finished his boiling out process in Madison Square Garden gymnasium.

At the completion of his light exercise he tipped the scales at 165 pounds, two pounds under the notch the boys signed for. Berlenbach weighed 166 pounds today.

Stribling will enter the ring as the favorite due to his defeat of Mike McFigue, world's champion at Newark, N. J., on March 31, and also to his victory over Tommy Loughran of Philadelphia at the Milk Fund bouts.

In nineteen starts Stribling has scored 17 victories. Berlenbach appears to be in better condition than his opponent but he has not been the same Berlenbach whom Jack Delaney of Bridgeport, Conn., knocked out at Madison Square Garden March 14.

KIWANIS GOLFERS READY FOR FINALS

The Kiwanis golf tournament has been in session at Nichols park for the past three or four weeks has progressed thro the semi-finals, and the final match will be played off in the near future, Edward Tomlinson won the right to contest against Farrell in the finals by beating Walter Wright. Tomlinson and Farrell were the winners in the semi-finals last year. Tomlinson being returned winner.

Aside from the amusement furnished the club members who are golf bugs, the idea of the tournament was to pick representatives to represent Jacksonville at the Illinois-eastern district convention of the Kiwanians which will be held at Galesburg, on September 8, 9, and 10. It is expected that about fifty members of the local Kiwanians will be in attendance at the convention.

At the close of the finals in the local tournament prizes will be awarded to the winner and the runner-up of the combat.

Market Report

WHEAT AND OATS DROP, CORN GOES HIGHER

CHICAGO, Aug. 26.—Improve-
ment of crop prospects in Canada
brought about free selling of
wheat here today and prices
dropped to a new low on the
present downturn. At the finish
wheat was 30c to 4c off, with Sep-
tember 1 1/2 to 1 3/4, corn rose
1c to 2c, oats unchanged to 4c
lower and provisions were the
same as yesterday to 2c higher.
A report to the Winnipeg free
press suggesting a yield of 198,
000,000 bushels of wheat for the
provinces with which the eastern
provinces would make more than
400,000,000 bushels for the coun-
try was responsible for the sudden
downturn in the wheat market
here toward the finish. Previous-
ly the market was inclined to
rally from its early weakness
when buyers became active on the
downturn.

Initial declines were attributed
to the easier tone at Winnipeg,
break in Liverpool and reports
that yesterday's export business
were greatly exaggerated. Houses
with northwest connections were
moderate sellers as the result of
bearish Canadian news cash in-
terests particularly those with
export connections absorbing
these offerings.

Improved investment buying
induced by receipt of unfavorable
weather reports relative to the
condition of the corn crop brought
about a sharp upturn in the value
of corn. Nebraska reported a
heat wave and need of rain, South
Dakota told of the unlikelihood
of corn maturing, while central
portions of the belt showed no
material improvement under fa-
vorable weather. Oats encoun-
tered a good class of commission
house buying being influenced
largely by the action of corn.
Provisions were firmer on scat-
tered buying.

KANSAS CITY LIVESTOCK REVIEW

Kansas City Stock Yards, Aug.
25.—Receipts today were 30,000
cattle and 7,000 calves, compared
with 51,500 cattle and 13,000
calves a year ago. The decrease
in receipts compared with a year
ago reflects favorable range and
grass conditions in the West, and
the fact that prices last week
broke sharply. The west is in a
position to resist the decline, and
unless market prices improve re-
ceipt of range cattle will be ma-
terially short of normal. Today's
offerings were about evenly di-
vided between fat and stock and
feeding classes. Prices for both
held close to steady at last week's
decline. There has been such a
material improvement in the con-
dition of growing corn that lar-
ger supplies of this cattle will be
bought than was thought prob-
able and this will result in higher
prices later.

Selected fleshy feeders are
selling at \$7.75 to \$8.25. They
are the kind that can be finished
on a short feed. Straight feed-
ers, good to good \$6.50 to \$7.25,
fair to good \$5.50 to \$6.50, and
plain to fair \$4.75 to \$5, and
common kinds as low as \$3.75.
Common stockers are bringing \$3
to \$4, plain to fair \$4.25 to \$5,
fair to good \$5 to \$6 and good to
choice \$6 to \$6.75. Liberal sup-
plies of stock calves are available
at \$4 to \$6.50.

The hog market rallied the
middle of last week, but broke
again before the close and fresh
declines were reported today. The
general market now is at the low
point of the past two weeks. How-
ever, September prices will prob-
ably go above the \$10 mark. To-
day the top price was \$9.65 and
bulk of sales \$9.15 to \$9.60.
Stock hogs and pigs are selling at
\$7.25 to \$7.50. In view of the
improved condition of corn and
last week's decline in cash prices
thin hogs now can be bought
worth the money.

Fat lambs are 25c to 50c low-
er than last week's close, and
steady with a week ago. Feeding
lambs are off 50 cents. The heavy
runs of Western lambs has start-
ed. Fat lambs are quoted at 12.50
to \$13.50 and feeding lambs 10.50
to \$12.25. Yearlings are bring-
ing \$9 to \$10.50 weathers \$6.75
to \$7.75 and fat ewes \$4.50 to
\$6.25. Breeding ewes are scarce
and high in price.

WHITE HALL AIDED BY LOCAL TALENT

Remains of Mrs. R. Truitt Laid to Rest in White Hall Cemetery—Other News Notes.

White Hall, Aug. 25.—Funeral services over the remains of Mrs. Bessie M. Truitt, wife of Remus Truitt, were held at 2:30 today in the First Baptist church, the discourse being delivered by Rev. L. E. Ellison, and the burial was in the White Hall cemetery.

Mrs. Truitt died at 6:30 a. m. Sunday in the home on Maple Heights at the age of 34 years. She and Mr. Truitt were married about two years ago and their home place was being developed into one of the most desirable in that residence district. She is survived by two children by a former marriage.

Two weeks of such warm weather as now prevails will serve to begin to place the corn crop to a place of safety from frost, according to some local crop observers, but the current opinion is that the bulk of the crop will be safe by October 1st. There has been much speculation as to the dates of first killing frosts of autumn and a few such dates for White Hall will serve to give an average. In 1914 the date was October 27, and then in 1917 it was Oct. 6, accompanied by freezing temperature. The

County Fair notice All persons wishing to make entries for the County Fair are urged to do so as early as possible to avoid the rush on Saturday and Sunday.

Miss Margaret Lasbury of Griggsville spent the week-end with Miss Olivia Driscoll.

Mrs. Ernest Nortrup is visiting her parents in Payson this week. Frank Hauser and family of Decatur are spending the week at their summer home in this place.

Mrs. Minnie Anderman, Mrs. Katharine Engleman and Mrs. Anna McFarland and daughter, Bessie of Strawberry Point, Ia., have been visiting at the home of Mrs. Mary Brockhouse.

A reunion of the children grandchildren and great grandchildren of Hart Brockhouse was held Sunday at the home of Mr. and Mrs. Henry Detmer near Chapin. The Brockhouse families from this vicinity were in attendance.

Mr. and Mrs. John Edlen and son Howard, Mr. and Mrs. George Kistner and children Floyd, Edna and Lawrence attended the Old Settlers' meeting at Clayton Friday.

Misses Bernice Skinner and Annabelle Hyde were Jacksonville visitors Saturday.

Mr. and Mrs. Earl Hyde and son Junior of Jacksonville were guests of Mr. and Mrs. George Hyde Sunday.

Wells Ham and family and Mrs. Charles Dickinson of Griggsville visited at the home of Mr. and Mrs. R. L. Ham Sunday.

FARMER HAS TERRIBLE EXPERIENCE

"I don't think anybody ever suffered more pain than I have. Twice I was operated for gall stones and a third operation was advised. A friend in Iowa wrote me how he was cured by taking Mayr's Wonderful Remedy. I took a bottle on his advice with good results and have also taken the full course. My pains are all gone and I feel I am permanently cured." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists. (Adv.)

LOOK to the Strength in the Spreader you Buy

THE BEATER IS MOUNTED ON THE AXLE

Bear this in mind when you buy your spreader—You can't get strength without material—and you can't get material without weight. The JOHN DEERE has the strength built into it to meet the demand for economical service—it is not built to meet a competitive price.

You may pay a little more for a JOHN DEERE, but you never buy farm machinery at as low cost as when you pay for the extra pounds of strength you get in a John Deere Spreader.

Make comparison from every standpoint—You will see the economy in buying a JOHN DEERE.
